Statement by Councilmember Howard Denis on Council Approval of Woodmont Triangle Plan

"The Woodmont Triangle amendment to the Bethesda Sector Plan will make a great Bethesda even greater. It means more affordable housing and more affordable housing means more business for retail establishments -- more customers who can walk to shops, restaurants, schools, parks, the Bethesda library, and the Metro.

"The area of Bethesda south of Old Georgetown Road is a great success, as shown by the vitality of the Bethesda Row area. This consensus plan gives us the opportunity for a renaissance in the Woodmont Triangle area that will boost the quality of life in Bethesda -- and that's a plus for the whole County and the whole DC region."
